

09 April 2021

## FIND OUT MORE ABOUT CRESWICK TRAILS

If you have questions about the proposed Creswick Trails and plans for Hammon Park, Council invites you to join an information session to ask questions, discuss details, and get a better understanding of this multi-million dollar project.

Stage One of the Creswick Trails Project includes construction of a Hammon Park Trailhead Community and Youth Hub and 60km of mountain bike paths.

Council will host public information sessions:

- Drop in Session – Saturday, 10 April 2021 from 11:00am-1:00pm at Hammon Park
- Community Open House – Thursday, 15 April 2021 from 6:00-8:00pm at the Creswick Town Hall.
- Drop in Session – Wednesday, 21 April 2021 from 6:30-7:30pm at the Ballarat Mechanics Institute

As part of the project Council is also seeking to understand what experiences and activities the community would like to see at Hammon Park. Complete an online survey and let Council know how you use Hammon Park and your ideas for improvement. The survey is available via <https://participate.hepburn.vic.gov.au>.

Council will soon be looking for user groups, community organisations or clubs to complete an expression of interest (EOI) for the licensed use of the Hammon Park Pavilion. If you would like to participate in this EOI, email your contact details to [abreach@hepburn.vic.gov.au](mailto:abreach@hepburn.vic.gov.au) officers will contact you with more information when the EOI is launched in April.

For more information including maps, studies and development plans visit [www.creswicktrails.com.au](http://www.creswicktrails.com.au).

Council acknowledges the generous funding of \$2.1M from the Victorian Government's Regional Tourism Infrastructure Fund – Stimulus Round towards the community and youth hub.
