Wrapping paper (coated)	Red		
Wrapping paper (non-coated)	Yellow		

X			
X-rays	Grey		

Y			
Yoghurt containers	Yellow		
Yoghurt pouches	Red		

* Daylesford only

What is e-waste?

Electrical waste is any item with a battery, cord or plug. It can not be disposed of in your kerbside bins. Small items can be taken to our Council Customer Service hubs or libraries (smaller than a kettle) but large items need to be taken to the transfer stations.

E-waste that is in working order and passes a test and tag test is able to be resold in the resource recovery shops, aka Tip shops, at our transfer stations.

Transfer stations:

Some charges and fees apply for disposal of items at Council's transfer station in Creswick, Daylesford and Trentham. If items are of good quality they can sometimes be resold at the transfer stations. Please ask a staff member how this works.
