HEPBURN SHIRE COUNCIL
SUSTAINABLE HEPBURN GRANTS
PROGRAM GUIDELINES
2024

Purpose

Hepburn Shire Council's Sustainable Hepburn Grants Program supports community-based projects and initiatives that aim to reduce future impacts of climate change.

Council has committed \$40,000 to support community driven sustainability initiatives in 2024. Funding is available for projects that can demonstrate a reduction in greenhouse gas emissions, through reduced energy consumption, carbon drawdown or via the use of renewable energy in Community facilities across Hepburn Shire.

Program Principles

Three principles guide the Hepburn Shire Council's Grants Programs, including how Council Officers work with, support, and respect the community and administer the program.

1. Transparency

Transparency is defined as the lack of hidden agendas or conditions and the availability of all information needed in order to collaborate, cooperate and make decisions effectively.

2. Equity

Equitable grant making is being conscious of the barriers and disadvantage being faced by some groups or individuals because of the inequitable distribution of power and resources.

3. Efficiency and Effectiveness

Every grant dollar should produce the maximum benefit for Hepburn Shire communities. Every grant should be both efficient and effective throughout the whole lifecycle of the Community Grant process, from promotion to evaluation.

Program Objective

The Sustainable Hepburn Grants Program provides funding to community groups and not-for-profit organisations (\$40,000 in 2024). Organisations can apply for funding with no set maximum amount, and can obtain co-contributions from partner organisations.

Projects may include:

- Renewable energy systems, such as solar photovoltaics
- Insulation and weather proofing
- Energy efficient heating/cooling systems
- Energy efficient lighting
- Energy efficient hot water, kitchen or other fixed appliances
- Carbon drawdown programs

- Initiatives which support or encourage circular economy, low-carbon activities and education.

We encourage programs that upgrade energy inefficient appliances, replace fossil fuel-based energy with renewable energy as well as programs that shift the behaviour of Hepburn Shire residents to become more sustainable through education and awareness.

Council encourages community groups to submit applications for their sustainability driven projects. Submissions will be assessed for their impact by a panel consisting of Council officers. Technical support will be provided to guide and refine the scope of potential projects, before and during the application stage. All applicants are advised to contact Council's Sustainability Team or the Community Strengthening Officer to ensure that the project meets the funding aims.

Strategic Alignment

The Sustainable Hepburn Grants Program aligns with the principles and objectives outlined in the [Council Plan and Vision 2022-25](#) and the Municipal Health and Wellbeing Plan 2022-25. The Council plan focus area *A resilient, sustainable, and protected environment* directly aligns with the objectives of the Sustainable Hepburn Grant program and also connects the program with Council's declaration of a Climate Emergency in 2019.

The program also connects with the strategic themes from the [Sustainable Hepburn Strategy 2022-26](#). The following themes from the Strategy may be used for project alignment.

- Beyond Zero Emissions
- Low Waste
- Climate resilience
- Natural Environment and Biodiversity

Who Can Apply

Local not-for-profit and community groups in the Hepburn Shire, which are incorporated with an ABN, or have an auspicing agent, are encouraged to apply. Groups based outside of the Shire are encouraged to apply if they can partner with local organisations to deliver the project.

Financial Co-contributions

Council encourages financial co-contributions, particularly for projects requiring significant funding. To ensure funding can reach as many applicants as possible, for applications over \$10,000 a co-contribution will be preferred. Co-contributions can be obtained from partnering organisations, other grant programs, sponsorship, or philanthropic sources. Applicants must provide evidence of financial co-contributions within the grant application. Financial co-contributor organisations may be contacted by Council as part of the eligibility and assessment stages.

Application Process

1. It is strongly encouraged that all applicants contact Council’s Community Strengthening Officer or Sustainability Team to discuss your initial idea for your project, application requirements and the online application process.
2. Visit: www.hepburn.vic.gov.au/residents/support/grants for more information.
